

«A place where knowledge is created»

As a leading business University we set global standards for research and teaching by promoting integrative thought, responsible action and an entrepreneurial spirit of innovation in business and society.

Associate Professorship in Empirical Research Methods (100%)

The University of St.Gallen and its School of Management are seeking candidates for an Associate Professorship in Empirical Research Methods in the management sciences with a strong empirical research background in the cognitive and behavioral sciences. Candidates are expected to have experience in quantitative research methods such as experimental research (lab, field, and online experiments) and/or new modeling techniques in the social sciences and business research (such as machine learning). The triple accredited (EQUIS, AACSB, AMBA) university offers a stimulating research environment with a professional behavioral research lab for experimental research activities and a large network of companies to engage in field studies.

The position involves teaching in both German and English at all levels, with an emphasis on introductory classes in empirical research methods in the Bachelor of Management as well as methodological support for researchers and students at the University of St.Gallen.

We are looking for candidates with both an internationally recognized research track record and publications in the leading psychology, business, or social science journals, as well as excellent teaching skills. Ideal candidates should address the challenges of a digitally transforming society as evidenced by the candidate's research program and innovative teaching methods. Experience in the acquisition of third-party funding is desirable.

We seek candidates per February 1st 2021 or by mutual agreement.

For further information, please contact Professor Dr. Klaus Möller, Chairman of the Search Committee and Dean of the School of Management (facultyposition@unisg.ch). The application should include a cover letter, curriculum vitae, list of publications, identification of two publications that best represent your current research, overview of the teaching portfolio, teaching evaluations and contact information of two professional references that we may contact if shortlisted for the position. Candidates should submit their application in electronic form to the President of the University of St.Gallen, Professor Dr. Bernhard Ehrenzeller (online via the website www.unisg.ch/professorships). The deadline for applications is August 2nd, 2020.

The University of St.Gallen is an equal opportunity and family friendly employer and supports dual career opportunities. We highly encourage women to apply.
